Comprehensive Transportation Plan (CTP)

Prepared For:

Chatham County Transportation Advisory Board

January 25, 2011

CTP

- What is a Comprehensive Transportation Plan (CTP)?
- What are the benefits and products of a CTP?
- Examples

Franklin County CTP Maps
Edgecombe County CTP Maps

What is a CTP?

Comprehensive Transportation Plan

- Long-Range planning 25 to 30 Years
- Multimodal Highway, Rail, Transit, Bike and Pedestrian
- Cooperative Process County, Municipality, Public, RPO, NCDOT
- Time-frame of 18-24 months

What is a CTP?

Comprehensive Transportation Plan

- Addresses local needs in context of statewide goals
- Recommendations are CONCEPTS still require environmental analysis, design and safety standards
- Facilitates local governments with transportation planning

Relationship Between Plans

Why a Comprehensive Transportation Plan?

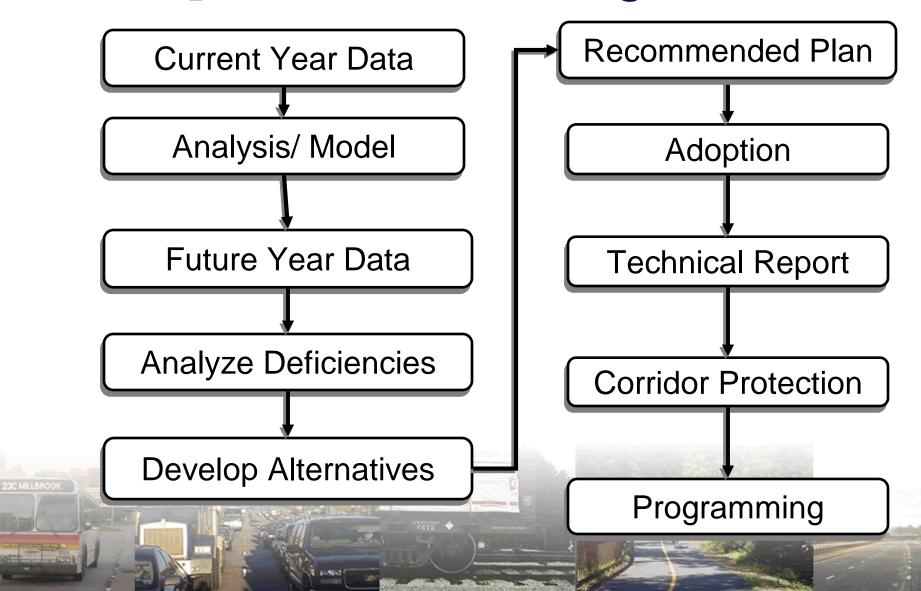

§ G.S. 136-66.2.

Development of a coordinated transportation system and provisions for streets and highways in and around municipalities.

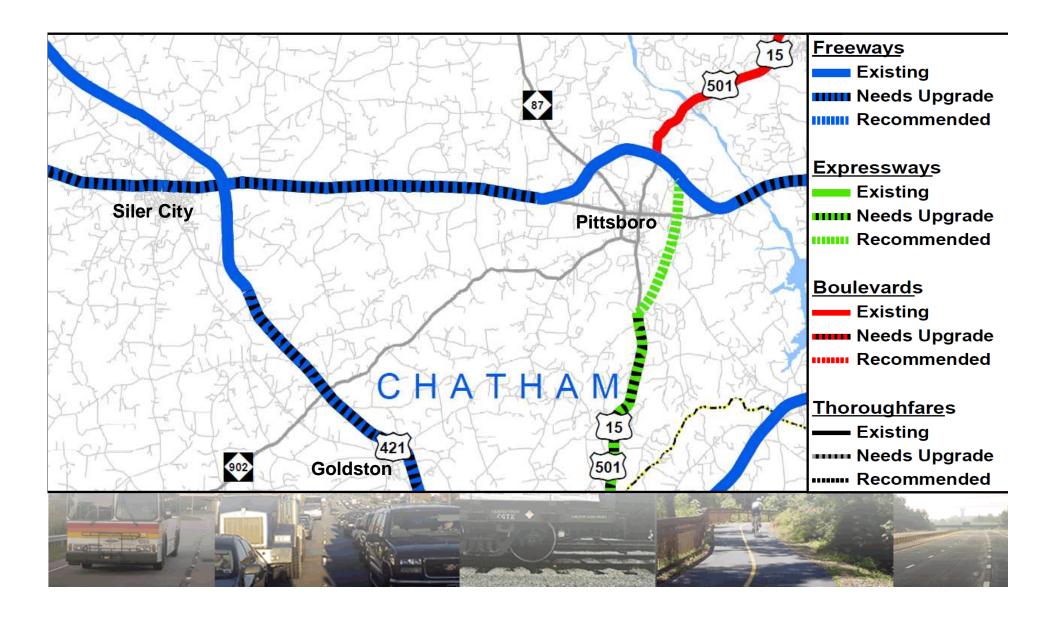

... with the cooperation of the Department of Transportation, shall develop a comprehensive transportation plan ...

Transportation Planning Process

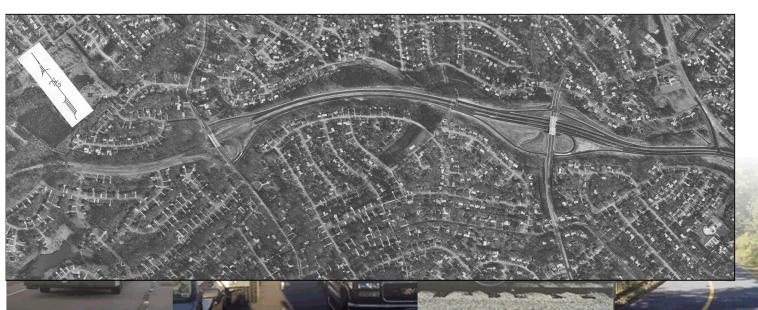

Strategic Highway Corridors Vision for Chatham County

Corridor Protection

Benjamin
Parkway
(Greensboro)
protected corridor
in 1981

Benjamin Parkway after construction in 1990

Benefits of CTP

- No direct cost to Chatham County
- Common long range vision for facilities between local governments, RPOs and NCDOT
- More reliable project delivery by:

Better transportation planning process;

Improved planning process partnership;

Customer-friendly documentation; and

Better integration of land use with transportation planning

Highway Facility Classifications

5 Classifications

Freeway, Expressway,
 Boulevard, Other Major and
 Minor Thoroughfares

Based on the following features:

Freeway Facility

US 74 Near Waynesville

- High mobility, low access
- 55 mph or greater
- Cross-section: Minimum 4 lanes with a median
- Connections provided only at interchanges; all cross streets are grade-separated
- Driveways not allowed
- Traffic signals not allowed
- <u>Examples</u>: I-40, I-95, US 220, US 52 between Lexington and Winston-Salem

Expressway Facility

US 221 (Marion Bypass)

- High mobility, low access
- 45 to 60 mph
- Cross-section: Minimum 4 lanes with a median
- Connections: Interchanges (major cross streets) and at-grade intersections (minor cross streets)
- Driveways are limited in location and number; right-in/right-out only
- Traffic signals not allowed
- <u>Examples</u>: US 117 north of I-40, US 74
 just east of I-277 in Charlotte

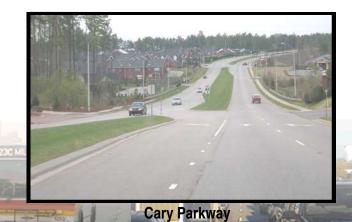

US 220 in Rockingham County

Boulevard Facility

US 70 East of Goldsboro

- Moderate mobility, moderate access
- 30 to 55 mph
- Cross-section: Minimum 2 lanes with a median
- Connections: At-grade intersections for most major and minor cross streets
- Driveways allowed primarily rightin/right-out; encourage consolidation and/or sharing of access
- <u>Examples</u>: US 1 in Raleigh, NC 55
 (Holly Springs Bypass), NC 24/27
 between Troy and Biscoe.

Major/Minor Thoroughfares

US 441 South of Dillsboro

- Balanced mobility and access
- 25 to 55 mph
- Cross-section: Minimum 2 lanes, no median; includes facilities with a continuous left turn lane
- Connections: At-grade intersections
- Driveways allowed with full movements; consolidate or share connections if possible
- <u>Examples</u>: US 64 in Siler City, NC 109 and NC 134 near Troy
