Chatham County understands that clear expectations make the application and development review processes easier for both applicants and staff. The policies outlined below will enable Planning Department staff to move the process along in a way that ensures that each application receives the attention it deserves. Staff desires to complete review of projects in an accurate and timely manner. Due to the preparation, reviews, and public hearing schedules, working with incomplete materials detracts from the timely review of applications.

1. Applications are to be reviewed for completeness by staff prior to being officially accepted for review. Applications that are dropped off or mailed in cannot be accepted without prior approval from the Zoning Administrator.
2. Checklists for each type of request are provided with each application package. If the application does not contain all required items on the checklist, it will be considered incomplete and shall not be accepted. **PLEASE REVIEW SECTION 19 FOR GENERAL USE REZONINGS IN THEIR ENTIRETY TO MAKE SURE ALL AREAS FOR SUBMISSION ARE COVERED.**
3. Upon determination by staff that an application is complete, it will be officially accepted by the Planning Department by accepting payment and issuing receipt. Staff will not hold materials for incomplete applications or any monies associated with the submittal of an application. Application fees must be paid at the time an application is submitted for acceptance.
4. In order to allow time to process fees, applications will not be accepted after 4:00 pm each day.
5. For your convenience, applicants may schedule an appointment with staff to review the application package before the official submission.

The Planning Department staff looks forward to working with you during the application process. If you have questions or need further assistance, please call 919-542-8285.

Current Watershed: Local

Responses to items listed in the Zoning Ordinance

1. The alleged error in this Ordinance, if any, which would be remedied by the proposed amendment with a detailed explanation of such error in the Ordinance and detailed reasons how the proposed amendment will correct the same.

No errors in the Zoning Ordinance are claimed.

2. The changed or changing conditions, if any, in the area or in the County generally, which make the proposed amendment reasonably necessary to the promotion of the public health, safety and general welfare.

The proposed heavy industrial zoning district is appropriate for the types of uses currently in operation or approved for the previously listed properties that include mining and rock crushing. There are ordinances and regulations in place to protect the public health, safety and general welfare including the Watershed Protection Ordinance and Flood Damage Prevention Ordinance, as well as regulations enforced by the NC Department of Environmental Quality Mining Program. Any future uses on these properties that were not in operation prior to adoption of zoning are subject to the provisions of the Zoning Ordinance.

3. The manner in which the proposed amendment will carry out the intent and purpose of the adopted Land Use Plan or part thereof.

The *Land Conservation and Development Plan* includes the "Continuation of current activities will be supported in existing industrial and commercial areas (p 27)." The plan also identifies eight economic center locations that include the Moncure-Haywood and Goldston-Gulf areas.

4. All other circumstances, factors and reasons which the applicant offers in support of the proposed amendment.

The Board of Commissioners adopted R1 and R5, Residential zoning on August 15, 2016 that applies approximately 388 square miles of the county that was previously unzoned. The previously listed properties were included in this zoning action and the uses occurring on the property were made non-conforming. After the adoption of zoning the Board agreed to initiate the process to rezone these properties to match the uses that were either in operation or approved for the sites.
