Brian,

I hope that you are doing well. We went in for Preliminary Plat public hearing last week and based on feedback we received as well as issues we encountered in the field a few weeks ago, we had to revise our layout. We reduced the length of the road, moved some lots around and in turn lost two lots from our original 17 (See attached PDF).

As a result, Lynn has asked that we get approval from all entities to move forward with/without a new resubmittal. Can you please confirm that with these changes, our stormwater approval is still valid?

Thanks,
Mitch
