

My name is Jan Hutton, and I'm the president of the Chatham Development Homeowners association. Our neighborhood was built 48 years ago, has 136 homes, and no sidewalks. When we heard that the initial Phase 12 proposal appeared to open Half Dollar Rd. to Briar Chapel traffic, there was great concern, focused primarily on safety and changing the culture of our slow-paced neighborhood. The proposal would have had traffic exiting through our neighborhood, to Manns Chapel Rd. **However**, we were very fortunate to have great citizen engagement from our homeowners, nearby homeowners, and other proximate long-standing neighborhoods. The current phase 12 proposal shows no Briar Chapel roads connecting to Half Dollar. For this, we are very grateful. Thank you, Lee.

As a sidebar, our neighbors have learned that citizen advocacy can make a difference-and that's a gift.
