Subject: Re: Proposed Folkner Branch Subdivision Notification

Hi Mark--

Thanks for the info on the Folkner Branch project. We do not need additional info unless you find evidence of human habitation on the property. If you should find remains of structures or agricultural use, please take some photos for us and note locations. We are particularly interested in the locations of old roads, so if you find traces of old roads we would like to see where they are located. If you could indicate that on a map and give some GPS coordinates, that would be very helpful.

If you should locate gravesites, please let us know immediately so we can visit and record.

If your deed research has indicated who might have lived on the property in the past, we would appreciate having that information.

Thanks for working with us to save Chatham history.

Randy: Please find attached a concept plan for the above project.

The site is located between Marthas Chapel and Hollands Chapel Road just west of NC 751

I would expect earliest occupancy to be 2021.

Please advise should you need anything else.

thx
