(2) Name of Ordinance for Text Amendment: Watershed Protection

(3) Text of Ordinance to be varied:

Section _____ Page 23 Section _____ Page _____
302.D.1.e

Existing Language:

Current uses: computer sales and service, internet service providers, art and craft sales, clothing sales, fishing equip sales, sale, rental, and service of water sports equip, and consultation services such as financial, marriage, personal and any other type of individual or group
Requested Language Change: counseling.

Add the following use: Retail stores and personal service shops similar to those listed dealing in direct consumer and personal services.

(4) Reasons for the requested text amendment: In the space below and on additional paper if needed, describe the reasons for the request and why you think it is justified.

The current language already by default includes retail and personal services but not open enough to allow other low impact businesses to locate in the same area. There are many low impact retail uses that could easily locate in this watershed designation without any harm to the watershed and adjacent areas. The ordinance already limits all other restricted uses and impervious surface maximums which also by default limits what businesses can locate in this designation.

I hereby certify that I am making application for myself or my organization and that the information provided is complete and the statements given are true to the best of my knowledge.
