

Chatham County Planning Board Agenda Notes

Date: January 7, 2020

Agenda Item: VII-3

Attachment #: 12

- Subdivision**

 Conditional Use Permit

 Rezoning Request

 Other:

Subject:	Request by Mark Ashness, P.E. on behalf of Shaddox Creek Developers, LLC for subdivision First Plat review and approval of The Conservancy at Jordan Lake , consisting of 47 lots on 105 acres, located off Old US #1, SR-1011, parcel #66894, 5334, 5545, & 5557.
Action Requested:	See Recommendation
Attachments:	<ol style="list-style-type: none"> 1. Major Subdivision Application and checklist 2. Vicinity map 3. Report from the Chatham County Historical Association 4. Notification to Chatham County Schools 5. Copy of General Environmental Documentation approval letter dated October 18, 2019 6. Letter from North Carolina Department of Natural and Cultural Resources, Natural Heritage Program, dated August 26, 2019 7. Copy of Community Meeting Report Form dated May 1, 2019 8. Detailed Soil Scientist Report, Soils Map dated November 21, 2019 9. Road name approval from Chatham County Emergency Operations Office 10. Riparian Buffer Report, dated September 16, 2019 11. Email correspondence from Army Corp. of Engineers 12. First Plat titled 'The Conservancy at Jordan Lake', prepared by CE Group. Inc

Introduction & Background:	
Zoning:	R-1
Water System:	Public Water
Sewer System:	Private on-site and off-site
Subject to 100 year flood:	No special flood hazard area within the development.

General Information: The subdivision process is a four (4) step process: Concept Plan, First Plat, Construction Plan, and Final Plat. The applicant has completed the community meeting and the Concept Plan review. The minimum lot size requirement for the project is 40,000 square feet of useable area. The Planning Board has two (2) meetings in which to act on the proposal.

Discussion & Analysis:

The request is for First Plat review and recommendation of The Conservancy at Jordan Lake Subdivision, consisting of 47 lots on 105 acres, located off Old US 1, S.R. 1011. A vicinity map showing the property location, attachment # 2, is included in the agenda packet. Per the Subdivision Regulations, Section 5.2C(4), a Public Hearing shall be held at the first Planning Board meeting to receive comments on the proposed subdivision. Item (b) states that following the Public Hearing, the Planning Board shall review the proposal, staff recommendation, and public comments and indicate their recommendation for approval, disapproval or approval subject to modifications. As stated above, the Planning Board has two (2) meeting to act on the proposal.

Roadways: The road is to be built as 20 foot wide travelway with a 60 foot wide public right-of-way and is to be state maintained.

Historical: The applicant contacted Bev Wiggins, Chatham County Historical Association. Ms. Wiggins corresponded by email dated November 18, 2019 and stated if anything of interest is discovered to please contact her. See attachment #3.

Schools: Notification of the proposed development was provided to the Chatham County School System. Randy Drumheller, Chatham County Schools Director of Maintenance and Construction corresponded by email dated November 18, 2019. See attachment # 4.

General Environmental Documentation: The developer submitted the General Environmental Documentation and a letter dated August 26, 2019 from North Carolina Department of Natural and Cultural Resources Natural Heritage Program to Chatham County Land & Water Resources Division for review. See attachments 5 & 6. The letter states "A query of the NCNHP database, based on the project area mapped with your request, indicates that there are no records for rare species, important natural communities, natural areas, and/or conservation/managed areas within the proposed project boundary. Please note that although there may be no documentation of natural heritage elements within or near the project boundary, it does not imply or confirm their absence; the area may not have been surveyed. The results of this query should not be substituted for field surveys where suitable habitat exists"

Rachael Thorn, Watershed Protection Director, reviewed and approved the information submitted.

Community Meeting: A community meeting was held on September 24, 2019 at New Hill Community Center, 3101 New Hill Holleman Rd, New Hill. Approximately seven people attended the meeting. Items/issues discussed included improving road condition

of an existing easement, availability of public water to adjoining properties, plans for the remaining land, availability for natural gas, high speed internet, prices of the proposed homes, personal rifle range north of the proposed property, and private airfield adjacent to the proposed property.

Technical Review Committee: The TRC met December 18, 2019 to review the First Plat submittal. The applicant/developer was not present. Larry Bridges, Chatham County Public Works Director states there's some deficiencies in the system and a preliminary fire flow test will be conducted. Staff had no concerns.

Septic: A soils report and map, attachment #8, was submitted to Thomas Boyce, Chatham County Environmental Health, LSS, REHS, Chatham County Environmental Health, for review. Mr. Boyce stated that the report and map were adequate for a First Plat review.

Water: County water is available and will serve the project.

Road Name: The road name Conservancy Parkway, Twisted Branch Lane, and Rustic Pine Lane has been approved by Chatham County Emergency Operations Office as acceptable for submittal to the Board of Commissioners for approval. A mail kiosk is proposed to be located near Lot 1.

Water Features: Kevin Murphrey of Environmental Services, Inc. (ESI), submitted the Riparian Buffer Review Application along with a riparian buffer map, dated June 2019, to Drew Blake, Senior Watershed Specialist for review. Mr. Blake and Mr. Murphrey completed an on-site riparian buffer review on August 12, 2019 to verify the consultant's findings. On October 8, 2019 Mr. Andy Williams of the US Army Corps of Engineers completed a site visit with ESI staff member. Streams SXC, SXF, and SXG were upgraded from ephemeral to intermittent streams. October 16, 2019 Mr. Blake issued a confirmation letter of his findings. The October 16, 2019 confirmation letter stated six (6) intermittent streams were found, seven (7) wetlands, and one (1) perennial stream. A 50-ft buffer will be required beginning at the flagged boundary and proceeding landward on all wetlands, a 50-ft buffer from top of bank landward on both sides of the feature for all intermittent streams and a 100-ft buffer from top of bank landward on both sides of the feature for the perennial stream.

Mr. Jeffery Harbour of ESI provided an email correspondence from Mr. Andy Williams dated November 5, 2019. Mr. Williams stated "The survey appears to show the tributaries and wetlands as they were flagged during my site visit on October 8, 2019. I will use this map to complete the Preliminary Jurisdictional Determination request."

Stormwater and Erosion Control: Three stormwater devices are proposed and will be placed by Lots 1, 35, 28 & 29 in the subdivision. As part of the stormwater permitting process additional information will be provided to the Watershed Protection Department. A Stormwater Permit and Sedimentation & Erosion Control Permit will be obtained from the Chatham County Watershed Protection Department prior to Construction Plan

submittal. No land disturbing activity can commence on the property prior to obtaining Construction Plan approval.

Site Visit: Site visits were scheduled for December 11, 2019 for Planning Department staff and various Board members to attend. Mark Ashness was present to walk the property with staff and Board members and discuss the project. Pictures of the site visit can be viewed on the Planning Department webpage at www.chathamnc.org/planning, Rezoning and Subdivision Cases, 2020.

Plan Chatham Evaluation:

Plan Chatham was adopted by the Board of Commissioners in November 2017 and is a comprehensive plan that provides strategic direction to address the most pressing needs in the county. These properties are located in an area of the county identified as Rural and Agriculture on the Future Land Use and Conservation Plan Map. The description for rural includes low density, single family homes on large lots, agriculture, home-based & small scale businesses, regional greenway trails, and conservation easements. The description for agriculture includes large-scale working farms, related processing facilities, supporting commercial and service uses, and single family homes.

Although the proposed subdivision is not a low density design it meets the adopted riparian buffer and stormwater control standards of the county. The developer also contacted the NC Natural Heritage Program to review their database for any rare species, important natural communities, natural areas, or conservation/managed areas within the project boundary and none were identified in their records. It should be noted that Plan Chatham is not intended to be used as a regulatory tool, but is a policy document. When reviewing subdivision applications the boards can use the plan as a tool to identify future regulatory changes.

Recommendation:

The Planning Department recommends granting approval of the road names Conservancy Parkway and Rustic Pine Lane and granting approval of subdivision First Plat for **The Conservancy at Jordan Lake Subdivision** with the following conditions:

1. Approval of the First Plat shall be valid for a period of twelve (12) months following the date of approval by the Board of Commissioners and the Construction Plan approval shall be valid for a period of twenty-four (24) months from the date of approval by the Technical Review Committee or Board of Commissioners.
