The new layout appears to be adequate.

Thomas J. Boyce LSS, REHS

Thomas: You have recently reviewed the above project for on-site septic.

Originally we planned to have County potable water. We have revised the plan to utilize individual wells instead. As a result we now have 45 lots versus 47 previously.

No changes to the septic fields we dropped (2) lots to insure adequate separation from well and septic. If you can review and confirm the plan layout.

thx
