

**Chatham County Planning Department**

PO Box 54

Pittsboro, NC 27312

**SUMMARY OF MAJOR SUBDIVISION  
REVIEW PROCEDURE**

A major subdivision is one with more than five (5) lots, one with new roads, or one with five (5) lots or less but which requires a variance from the regulations to be approved.

Major subdivisions require three general reviews: sketch design, preliminary, and final. The sketch design review is to properly identify the property being subdivided to insure the adherence to required design standards, to determine improvement proposals, and to get the initial input of the Planning Board, Board of County Commissioners, and adjacent property owners. The preliminary review by the Planning Board and Board of County Commissioners and other appropriate agencies (i.e. soil scientist, Department of Transportation, and etc.) is to insure that all plans meet the regulations. The final review by appropriate reviewing agencies, the Planning Board, and the Board of County Commissioners is to insure that all required improvements (i.e. roads, water lines, survey monuments, and etc.) have been installed as required according to plans and regulations.

The Planning Board meets the first Tuesday of each month at 6:30 p.m. The Board of County Commissioners meet the third Monday of each month at 6:00 p.m.

A detailed review procedure for major subdivisions is described in the Chatham County Subdivision Regulations; however, a summary is shown below:

**Sketch Design Review Procedure:**

1. The developer shall submit to the Planning Department a completed subdivision application, administrative review fee, other related information as required (see major subdivision checklist) and twenty (20) copies of the sketch plan showing topo of property and 2 copies of the preliminary soils map and report from a certified soil scientist along with one (1) electronic copy (PDF format) of all items submitted at least twenty-three [23] days prior to the Planning Board meeting. See department calendar for submittal dates and major subdivision review checklist for list of items to be submitted and digital document submission guidelines. Topo and soils information may be included on sketch plan map.
2. Names and addresses of the adjacent property owners are required along with the application. The subdivision cannot be placed on the monthly agenda without notice of the meeting being mailed to the adjacent property owner's fourteen [14] days prior to the meeting.
3. The Planning Board will review the information described and agenda notes, which are mailed prior to the meeting. During the monthly meeting the Board will make a recommendation to approve the subdivision, disapprove the subdivision for specified reasons, or approve the subdivision with specified conditions or modifications.
4. The Planning Board's recommendation and the required number of plans are submitted to the Board of County Commissioners for their review and action. If the sketch design is

approved by the Board of County Commissioners then more detailed preliminary plans are prepared for review by various agencies.

5. The sketch design approval is valid for twelve [12] months from the date of approval by the Board of County Commissioners. If the required preliminary plans are submitted while the sketch design approval is valid then the plans will be reviewed according to regulations in effect at the time of sketch design approval. If preliminary plans are submitted following expiration of the sketch design approval then the developer shall also resubmit for sketch design approval and plans submitted must conform to regulations in effect at the time of submittal.

**Preliminary Plat Review Procedure:**

1. The developer should submit the following plans to the agencies listed at least 30 days prior to the Planning Board submittal date to allow adequate time for review and approval. The review process cannot continue without preliminary approval by *a – e* listed below:
  - a) Soil scientist to prepare soils map showing location of suitable soils and a letter of explanation. See Soil Scientist Requirements for Preliminary Review.
  - b) Department of Transportation – road plans and profiles and drainage plans (public roads).
  - c) Department of Transportation – Commercial Driveway Permit
  - d) Chatham County Health Department, Environmental Health Section, erosion and sedimentation plans for public and private roads.
  - e) Other agencies as required, (i.e. Chatham County Public Works, NCDWQ, Corps of Engineers, )
2. The developer shall submit to the Planning Department the names and addresses of the adjacent property owners at least twenty-three [23] days prior to the Planning Board meeting. The subdivision cannot be placed on the monthly agenda without notice of the meeting being mailed to the adjacent property owner's fourteen [14] days prior to the meeting.
3. The developer shall submit to the Planning Department twenty (20) copies of the subdivision plans and one (1) copy of permits from other agencies along with one (1) electronic copy (PDF format) of all items submitted at least twenty-three [23] days prior to the Planning Board meeting. See department calendar, review checklist and digital document requirements. The subdivision will not be placed on the Board's monthly agenda unless this information is submitted to the Planning Department at least twenty-three [23] days prior to the meeting.
4. The Planning Board will review the information described and agenda notes, which are mailed prior to the meeting. During the monthly meeting the Board will make a recommendation to approve the subdivision, disapprove the subdivision for specified reasons, or approve the subdivision with specified conditions or modifications.
5. The Planning Board's recommendation and the required number of plans are submitted to the Board of County Commissioners for their review. **Only when approval is given by the Commissioners can the developer begin construction.** After preliminary approval

the developer has eighteen [18] months to complete the development and submit final plans.

**Final Plat Review Procedure:**

1. After all improvements are completed or a financial guarantee is in order, the developer shall submit to the Planning Department, twenty (20) copies of plans and other related information along with one (1) electronic copy (PDF format) of items submitted. The developer shall submit septic improvement permits for each lot. All required information shall be submitted no less than twenty-three [23] days prior to the Planning Board meeting. Any financial guarantee should also be submitted at this time for review by the county attorney. Septic improvement permits and financial guarantee information are not required to be submitted electronically.
2. The Planning Board will review the subdivision information and agenda notes mailed to it prior to the meeting. A final recommendation on the subdivision plat will be made by the Board during the meeting. The Board may recommend approval of the plat, disapproval of the plat for specified reasons, or approval of the plat with specified conditions.
3. The Planning Board's recommendation and the required number of plans are submitted to the Board of County Commissioners for their review. **Only after approval is given by the Commissioners and all related fees paid can the final plat be recorded and lots sold.**
4. If final approval is given, the plat shall be recorded within 60 days by the developer in the Office of the Chatham County Register of Deeds and lots may be sold. It is illegal to sell lots prior to approval and recordation of the final subdivision plat.

**NOTICE**  
**CHATHAM COUNTY PLANNING DEPARTMENT**  
**SUBMITTAL DEADLINE POLICY**

This notice is to let you know that the time period of the Planning Department staff review of zoning requests and subdivision requests has changed. The Planning Department will no longer provide input about application revisions following the submission deadline. If the applicant would like the Department to review an application for accuracy and clarification and to give suggestions about possible changes the draft application is to be submitted in advance of the application deadline. Two weeks prior to the application deadline would be helpful. Applications submitted on the deadline will be considered the final applications for review by the Planning Department, the public and the reviewing Boards.

REQUIREMENTS FOR SOIL SCIENTIST REPORT  
SUBDIVISION PRELIMINARY REVIEW

1. Report must be signed and sealed by a NC licensed soil scientist.
2. Include a soils map drawn to a scale showing initial and repair areas for each lot along with an index of how they are marked in the field. (Include any proposed surface discharge systems.
3. Identify proposed septic systems along with proposed loading rates for each lot.
4. Identify proposed easements for all off site septic areas.
5. Include all special testing results for any proposed pretreatment systems.
6. Show proposed or existing set-back restrictions on and adjacent to subject property, ie: water supplies, jurisdictional wetlands, impounded waters, etc.
7. Property lines must be clearly marked and correspond with submitted maps.

CHATHAM COUNTY  
PLANNING OFFICE

---

**DIGITAL DOCUMENT SUBMISSION GUIDELINES**

---

Chatham County, in the interest of record automation, requires that all subdivision and re-zoning applications and supporting documents, including plats/maps, be submitted to the Planning Office in digital and hardcopy formats. The primary function of this document is to provide digital submission standards, procedures, and requirements. Failure to comply with these requirements will delay the processing of your application.

**ELECTRONIC PLAN AND APPLICATION SUBMITTAL**

- ALL DIGITAL FILES MUST BE PC COMPATIBLE. All digital documents must be submitted in Portable Document Format (.pdf). A digital copy of all hardcopy documents must be provided with the application submittal.
- All related digital files should be located in a single directory or folder in the media and named accordingly. Acceptable media will include floppy disks and CD-ROM's. Discs and disc sleeves/cases should be labeled with the contact name, phone number, project name and phase. Revisions to previous submittals should be labeled as such. Digital files may be transmitted via email if approved by the Planning Office.
- Multiple pages of a document shall be combined into a single document when document size permits. Ideally, files should not be larger than 5 megabytes (MB) in size. Files should not be submitted in a compressed format (i.e. WinZip or PkZip).
- PDF documents produced by scanning paper documents should be scanned at resolutions that will ensure pages are legible both on the computer screen and when printed. Therefore, we recommend scanning documents at 300 dots per inch (dpi) to balance legibility and file size. All documents should be properly oriented to the top of the page.
- When submitting numerous digital documents you must provide an ASCII text file named "Submittal.txt" that contains a listing of the documents in the order of the packet submission.

Note: Staff may request digital files compatible with ESRI ArcView GIS software (i.e. AutoCAD .dwg or .dxf files) depending on the size and scope of the project.

If you have any questions regarding the submission of digital documents please contact Jason Sullivan with the Planning Office at 919/542-8233 or [jason.sullivan@ncmail.net](mailto:jason.sullivan@ncmail.net).
