

## **Chatham Conservation Partnership**

January 19, 2017

9:00am-12:00pm

Chatham County Agriculture and Conference Center, Hall C  
1192 US-64 W Business

Chatham County is seeking guidance from members of the Chatham Conservation Partnership on identifying areas of high development potential but also where there are priority natural communities and species of conservation need. The County would like to be proactive in these areas by developing conceptual development designs that maintain core areas of habitat and connectivity in these areas if they do become developed in the future.

Please join us on January 19 at the new Chatham County Agriculture and Conference Center in Hall C to provide input on protecting natural resources through a hands-on mapping exercise.

### **Agenda**

**9:00 Welcome and Introductions**

**9:15 Chatham County Comprehensive Plan Update**

Jake Petrosky, LandDesign & Meg Nealon, Nealon Planning

**9:45 Overview of Chatham County's Green Growth partnership with Wildlife Resource Commission**

Jake Petrosky, LandDesign & Meg Nealon, Nealon Planning
