**Subject:** RE: Proposed Chapel Oaks Subdivision Water Service Confirmation

Mark,

We can provide sufficient water to the proposed subdivision. I haven't looked at the as-builts for legend oaks in quite sometime to know if the waterline on peakview place goes to the property boundary or stops short which would require some approvals from legend oaks to access waterline within their subdivision. Also, I would like to take a close look at where our waterline ends on old lystra rd to see if we can possibly loop it. We can discuss further later but sufficient water is available. Have a great evening.

Larry

Larry: We will be submitting for 1<sup>st</sup> Plat later this month and want to confirm your ability to serve this 31 lot residential subdivision. We will be extending water off of the existing 8" WL on Peakview Place (Legend Oaks).

I will forward a FH flow test app to you tomorrow.

thx
