RE: Chatham County Radio System Upgrade Project – Northeast Park Tower Site

To whom it may concern:

The Chatham County Board of Commissioners approved the radio system upgrade project on December 17, 2018. The project replaces an aging and outdated radio system which no longer meets the need of public safety agencies in Chatham County. To accomplish the radio system upgrade, six (6) new towers will be constructed throughout the county. These towers are vital to this project and will provide radio coverage countywide for public safety agencies.

Due to the necessary height of these towers to provide maximum radio frequency coverage area, and per the county Wireless Telecommunications Facilities Ordinance, each new tower will allow for three (3) carriers in addition to the county radio equipment.

The county will use land at the Northeast District Park to build one of these towers. The address assigned to this tower is 5410 Big Woods Rd, Chapel Hill, NC 27517

Please contact me if you have any questions.
