
Garbage to Gardens

How to Create Garbage to Gardens Game Dice

If you would like to create your own version of the Garbage to Gardens, follow the instructions below.

Materials:

- 4 inch cube boxes, like for a coffee mug (7)
- Print outs of Garbage to Gardens Game Signs (7 signs)
- Print outs of Garbage to Gardens Dice Pieces
 - Each station will have 4 specific pieces and require 2 roll again pieces, so you will need 14 roll again pieces
- Laminating sheets and laminator (not necessary, but will extend the life of the dice)
- Newspaper or packaging paper to stuff into boxes
- Tape or Velcro to attach pieces to boxes

Instructions:

1. Print, laminate (if desired), and cut out pieces and signs.
2. Form cube boxes and stuff with newspaper or packaging paper. This will help them roll better and extend the life of the dice.
3. Tape or Velcro the pieces onto each side of the box. Each box should have 4 pieces with instructions and 2 roll again pieces.
 - a. If you are going to use tape, we suggest taping the cube all the way around.
 - b. Velcro is suggested because if one piece gets damaged you can just replace that one piece.
