GRANVILLE NEIGHBORHOOD – A Planned Residential Neighborhood (Special Use Permit)

Project Discription: Granville, a 51.8 acre subdivision of 43 single-family homes located adjacent to and south of Fearington Village, the planned residential community located on the east side of Chapel Hill Road (US 15-501) across from Morris Road and the North Chatham Fire Station. Granville will be a new neighborhood for Fearington Village. Single-family homes are planned on lots approximately 27% smaller than standard R-1 zoning, with reduced setbacks for closer spacing. Dedicated open spaces are provided totaling approximately 36.9% of the parcel.

Landscape Rational: The landscaping within Granville will mirror the development of the adjacent Fearington Village by maintaining wooded home sites and a 50' wooded perimeter buffer around the subdivision perimeter. Additional plantings will supplement the buffer within the nine non-wooded lots along the western perimeter. Street trees will be provided fronting these nine lots as a continuation of the tree canopy along the streetscapes.
