Mr. Dan Sears
Sears Design Group, Inc.
625 W. Jones Street
Raleigh, NC 27603

Dear Mr. Sears,

Thank you for submitting the General Environmental Documentation (GED) for Granville on May 27, 2022 on behalf of Fitch Creations, Inc. The GED is a requirement of the Chatham County Subdivision Regulations.

The GED has been reviewed by Chatham County staff and the information provided is satisfactory. This requirement has been met.

Please note that any Allowable uses and Allowable with Mitigation uses in the protected riparian buffer will require a Buffer Authorization from Chatham County. In addition, all permits for wetland and stream impacts from NCDWR and the US Army Corps of Engineers will need to be obtained prior to receiving approval from Chatham County for a Grading Permit and Land Disturbing Permit.

If you have any concerns regarding the GED staff review, please contact me. If you have any questions regarding the Subdivision Regulations or the planning review process, please contact Kim Tyson at 919-542-8283 or Jason Sullivan at 919-542-8233.

Respectfully,

Drew Blake
Watershed Protection
Sr. Watershed Specialist

RE: Info Request ID: 163

Dear Robert Harrison:

The North Carolina Natural Heritage Program (NCNHP) appreciates the opportunity to provide information about natural heritage resources for the project referenced above.

Based on the project area mapped with your request, a query of the NCNHP database indicates that there are no records for rare species, important natural communities, natural areas, and/or conservation/managed areas within the proposed project boundary. Please note that although there may be no documentation of natural heritage elements within the project boundary, it does not imply or confirm their absence; the area may not have been surveyed. The results of this query should not be substituted for field surveys where suitable habitat exists. In the event that rare species are found within the project area, please contact the NCNHP so that we may update our records.

The attached 'Potential Occurrences' table summarizes rare species and natural communities that have been documented within a one-mile radius of the property boundary. The proximity of these records suggests that these natural heritage elements may potentially be present in the project area if suitable habitat exists. Tables of natural areas and conservation/managed areas within a one-mile radius of the project area, if any, are also included in this report.

If a Federally-listed species is found within the project area or is indicated within a one-mile radius of the project area, the NCNHP recommends contacting the US Fish and Wildlife Service (USFWS) for guidance. Contact information for USFWS offices in North Carolina is found here: <https://www.fws.gov/offices/Directory/ListOffices.cfm?statecode=37>.

Please note that natural heritage element data are maintained for the purposes of conservation planning, project review, and scientific research, and are not intended for use as the primary criteria for regulatory decisions. Information provided by the NCNHP database may not be published without prior written notification to the NCNHP, and the NCNHP must be credited as an information source in these publications. Maps of NCNHP data may not be redistributed without permission.

The NC Natural Heritage Program may follow this letter with additional correspondence if a Dedicated Nature Preserve, Registered Heritage Area, Land and Water Fund easement, or Federally-listed species are documented near the project area.

If you have questions regarding the information provided in this letter or need additional assistance, please contact Rodney A. Butler at rodney.butler@ncdcr.gov or 919-707-8603.

Sincerely,
NC Natural Heritage Program

SUBJECT: Significant Natural Heritage Area Information Request
Chatham County, NC - Parcel #95264

To Whom It May Concern:

We are assisting Fitch Creations, Inc. with a subdivision design in Chatham County. Per the County's requirements, we request Significant Natural Heritage Area Information for Parcel #95264 (*property is located just south of Ferrington Village - see provided maps*).

We grant our permission to release the report and map to Chatham County.

The property currently contains mostly mature woodlands, with a narrow field along the western edge. There are no structures on the parcel. The County requests the following determinations be provided:

- Is there a Significant Natural Heritage Area (SNHA) on the project site?
- Is there a Significant Natural Heritage Area (SNHA) within 1-mile of the project site?
- Does the project site contain "element occurrences" of natural diversity, including rare species, as determined by the Natural Heritage Program?
- Are elements occurrences of natural diversity, including rare species, as determined by the Natural Heritage Program within 1-mile of the project site?

Feel free to contact us if any questions, or if additional information is required.

Sincerely,

Dan Sears & Robb Harrison
