Subject: RE: Jordan Dam Rd. Project, Soil Report

Chris,

A review by EH is not required since this project will be using an EOP private option permit. This email should be sufficient for Planning Department purposes, but let me know if you need anything else.

Thanks,

James

James and Carl,

I am working with Underfoot Engineering on an upcoming >3000 GPD EOP wastewater system on Jordan Dam Rd.

I am attaching the preliminary plan set for reference.

I was writing to see if the initial soil report/map we prepared (also attached) will be sufficient for your office to give planning the ok for preliminary plat approval. If not, will you let me know what else I can provide when you have a moment?

Thanks in advance for your help.

Chris
