**Attachments:** SAW-2021-01467 - Delineation Exhibit.pdf

Happy Friday, everyone!

This is the JD concurrence from USACE. We are good to go from that standpoint!

Landon, please let me know when you estimate you'll have the updated impact maps ready for review. Even just a heads up a few days prior works for me.

Thanks, and I hope everyone stays warm this weekend!

-Kim

Dear Kim,

Reference is made to SAW-2021-01467, please reference this number on any correspondence regarding this action.

On November 28, 2022 and January 3, 2023, we received information from you requesting the Wilmington District, Regulatory Division review and concur with the boundaries of an aquatic resource delineation.

We have reviewed the information provided by you concerning the aquatic resources, and by copy of this e-mail, are confirming that the aquatic resources delineation has been verified by the Corps to be a sufficiently accurate and reliable representation of the location and extent of aquatic resources within the identified review area. The location and extent of these aquatic resources are shown on the attached delineation map, labeled "Revised PJD Sketch Map 1092 Jordan Dam Road" and dated December 28, 2022.

Regulatory Guidance Letter (RGL) 16-01

<https://usace.contentdm.oclc.org/utills/getfile/collection/p16021coll9/id/1256> provides guidance for Jurisdictional Determinations (JD) and states "The Corps generally does not issue a JD of any type where no JD

has been requested”. At this time we are only verifying the delineation. This delineation may be relied upon for use in the permit evaluation process, including determining compensatory mitigation. This verification does not address nor include any consideration for geographic jurisdiction on aquatic resources and shall not be interpreted as such.

This delineation verification is not an Approved Jurisdictional Determination (AJD) and is not an appealable action under the Regulatory Program Administrative Appeal Process (33 CFR Part 331).
