Discussion & Analysis:

When determining whether a rezoning request should be approved under Section 5 Conditional Zoning Districts, the following findings must be supported.

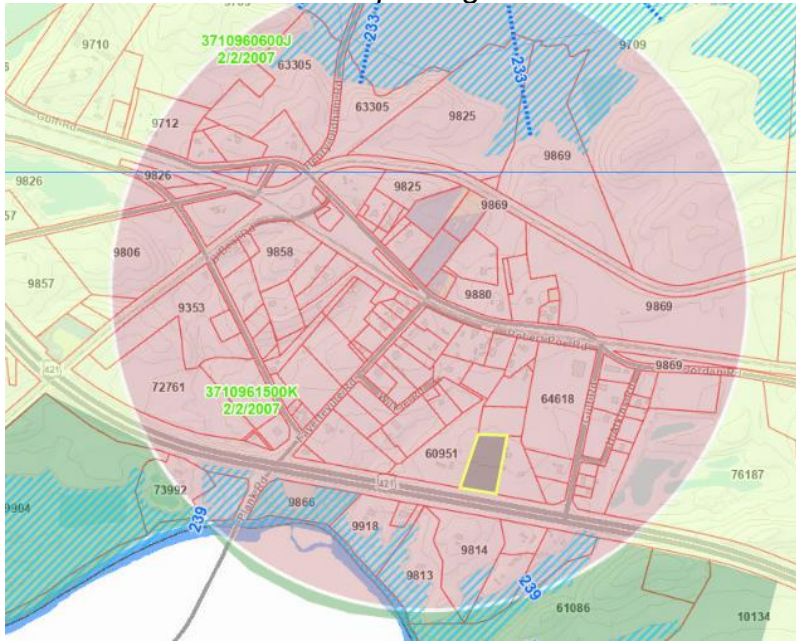

1. **The alleged error in the Ordinance, if any, would be remedied by the proposed amendment with a detailed explanation of such error in the Ordinance and detailed reasons how the proposed amendment will correct the same.** The applicant is not claiming any errors in the Ordinance pertaining to this request.
2. **The changed or changing conditions, if any, of the area or in the County generally, which make the proposed amendment reasonably necessary to the promotion of public health, safety, and general welfare.** The applicant is proposing a dual use site to provide varying services to the Goldston and Lee County area residents stating with the new growth, HOA rules, and the adopted Land Use Plan map, makes this a good location for the business.

Similar uses are approximately 25 miles with one mini-outdoor storage facility approximately 8.5 miles away from this proposed site.

The property fronts on US 421 and has access to water from the Goldston-Gulf Sanitary District. A review of a commercial driveway permit will be completed with the NC Department of Transportation.

3. **The manner in which the proposed amendment will carry out the intent and purpose of any adopted plans or part thereof.**
 - The parcel is located with a Village Center node of the Land Use Plan where a mix of uses is encouraged (pg 14) (pg 40 Goals).
 - This area has been designated for future growth per the Future Land Use and Conservation Plan map.
 - The Town of Goldston has approved a new subdivision and other commercial uses with more on the horizon that this business can serve.

Below is the Land Use Map designation area

4. The requested amendment is either essential or desirable for the public convenience or welfare.

- The property fronts on US 421 S, a four-lane divided median highway and the daily vehicle trip general for this property is approximately 15 vehicles per day which will produce a minimal impact on traffic.
- The Chatham County Appearance Commission reviewed the proposed site plan on June 28, 2023, and think the site will be developed with keeping rural character through landscaping and buffering.
- The applicant held a community meeting on July 26, 2023. Three neighbors attended and had questions about visual impacts, property values, and general overall development timeline. No changes were recommended from this meeting.
- All other aspects such as lighting, noise, and signage will comply with the requirements of the Zoning Ordinance

5. All other circumstances, factors, and reason which the applicant offers in support of the proposed amendment.

- Although public water is available, the property will be served by a septic system on-site. Both will require approximately 500 gpd.
- The Watershed Protection Ordinance allows for up to 36% built upon area (50% with an approved SNIA) and the applicant states 74% will be kept undeveloped.
