RE: Proposed Cellco Partnership d/b/a Verizon Wireless telecommunications tower facility on 911 TBD 49 Farmers Dr, Silver City, NC 27344 (Site Name: BEAR\_MAPLE).

Dear Planning & Neighborhood Development,

I am the Verizon RF engineer responsible for this site.

I am writing this letter to support Verizon's Zoning application for a wireless telecommunications tower facility proposed at 911 TBD 49 Farmers Dr, Silver City, NC 27344. The proposed centerline would be 280 feet. The proposed site would provide reliable coverage and capacity in the immediate area near the Silver City Glendon Rd / Bonlee Rd., which cannot be achieved by the nearby VZ sites.

Thank you for being so considerate,

A handwritten signature in black ink, appearing to read "Nikunj", is written over a horizontal line.
