

Chatham County Planning Board Agenda Notes

Date: August 6, 2024

Agenda Item: VII-2

Attachment #: 2

- Subdivision**

 Special Use Permit

 Rezoning Request

 Other:

Subject:	Request by Mark Ashness, P.E. on behalf of SRE NC Landco, LLC for subdivision Preliminary Plat review and approval of Parks at Meadowview Phases 2-4 , consisting of 453 lots on 261.23 acres, located off Parks Meadow Drive (SR-1680), parcels 61935, 10893, 89726.
Action Requested:	See Recommendation
Attachments:	<ol style="list-style-type: none"> 1. Major Subdivision Application 2. Email correspondence dated July 11, 2024, with Chatham County Schools 3. Email correspondence dated June 7, 2024, with Chatham Historical Association 4. Wetland Delineation & Stream Evaluation document dated September 27, 2021 5. Chatham County Soil Erosion and Sedimentation Control letter of approval with modifications dated June 12, 2024 6. Chatham County Stormwater Letter of Approval dated June 28, 2024 7. NCDOT Driveway Permit 8. NCDOT Subdivision Plan Approval 9. Wastewater Collection System Extension Permit 10. Authorization to Construct from DEQ 11. Preliminary plat titled "Parks at Meadowview: PH. 2-4" prepared by July 1, 2024

<p>Introduction & Background: Zoning: R-1 Water: Public water Aqua NC Sewer: Public Aqua NC Watershed District: WSIV-PA Protected Area in the Jordan Lake drainage Within 100-year flood: Yes</p> <p>The sketch plan for the "Meadowview" was originally approved on May 16, 2005 as a</p>

Planned Unit Development (PUD) consisting of 715 lots on 793 acres. On March 20, 2006, the PUD sketch plan was amended to reduce the number of lots from 715 to 600, to have all roadways be private, redesign the lot layout, and change the name to “The Parks at Meadowview”. On May 15, 2006, the PUD sketch plan was revised to add approximately 155 acres and increase the number of dwelling units to 739. In February 2014, the Board of Commissioners approved one lot for a wastewater pump station. October 17, 2022, the Board of Commissioners approved the revised sketch plan for Phases 2-4 consisting of 788 lots on 948.3 acres.

The Parks at Meadowview was approved as PUD under the pre-2008 Subdivision Regulations and there is no special use permit. PUDs require a special use permit; however, zoning was not adopted in this area until November 2007. If this request is approved the PUD will remain vested under the pre-2008 Subdivision Regulations.

The Planning Board has two (2) meetings to make a recommendation.

Discussion & Analysis:

The request before the Board is for preliminary plat review and approval of Phases 2-4 consisting of 453 lots on 261.23 acres

Water: Aqua NC will provide public water. The Water Main Extension Permit and the Authorization to Construct, dated July 12, 2024, issued by NC Department of Environmental Quality (NCDEQ), Division of Water Resources have been provided.

Sewer: Sewer service will be provided by Aqua NC. The Wastewater Collection System Extension Permit, issued by the NCDEQ, Division of Water Resources, dated May 15, 2024, has been provided.

Roadways: All roads are proposed to be public rights-of-way, except the road to the amenity area, that will be a private road with a gate. The public rights-of-way are proposed to be 50’ and 60’ wide.

Road Names: The road names Hampstead Street, Cherry Branch Drive, Gardenview Drive, Owls Branch Drive, Goldenleaf Drive, Freemont Avenue, Misty Pine Street, Burkdale Drive, Hidden Pond Place, and Hawks View Point, have been approved by the Chatham County Emergency Operations Office as acceptable to submit for approval by the Board of County Commissioners.

Stormwater: Stormwater devices are proposed. However, the county did not have a stormwater ordinance in effect when The Parks at Meadowview was originally approved, and this continues to apply. The applicant has agreed to “provide wet ponds meeting the current Chatham County stormwater standards for any development associated with Phases 2-4 and the central amenity.”

Water Features: The project is subject to the pre-2008 riparian buffer standards. The applicant has agreed to provide the current riparian buffer regulations in addition to the pre-

2008 standards or whichever is greater.

Soil Erosion and Sedimentation Control: An approval letter with modifications dated June 12, 2024, by Mr. Justin Hasenfus, Watershed Protection Erosion Control Program Manager with Chatham County stated the soil erosion and sedimentation control plans are acceptable with modifications.

Open Space: Open space is proposed within the phases.

Technical Review Committee: The TRC meeting was held July 17, 2024; Mr. Mark Ashness attended the meeting stated the roads will be NCDOT public maintained except for the road leading to the amenity area will be private and gated. The project will be a mix of single-family homes and townhomes. The riparian buffers were made more substantial than pre-'08 standards.

Discussion included:

- Restrictive covenants need to be very clear since zoning enforcement will mostly fall on the HOA because the project was approved prior to zoning in this area.
Response: This is going to be built by the same builder, so we should have strong restrictive covenants in place.
- Watershed Protection Department thanked Mr. Ashness for increasing the buffer width and at final plat will need a note stating Chatham County can only enforce buffers on the mapped streams, all others will have to be enforced by the HOA.
- Stormwater Operation & Management agreement must be recorded and referenced on the final plat.
- Stormwater note from 405(B) must be added.
- Make sure SCF "F" will have access to maintenance, the retaining wall could be a potential problem for equipment, unless the 35-ft PDE at north or south end of retaining wall is enough room for heavy equipment.
- On callouts at each Stormwater Control Measure (SCM) specify the width of SCM maintenance/access easement (it's implied that it's the same as the 20ft PDE, but better to specify), also at each access connected to a public right-of-way, label SCM access and maintenance easement.

How does this relate to the Comprehensive Plan:

Plan Chatham was adopted by the Board of Commissioners in November 2017 and is a comprehensive plan that provides strategic direction to address the most pressing needs in the county. These properties are in an area of the county identified as compact residential on the Future Land Use and Conservation Plan Map. The description for compact residential includes mix of single family detached, attached residential units, and some multifamily units complemented by a variety of open space. Community centers, amenities, recreational uses, schools and churches. It should be noted that Plan Chatham is not intended to be used as a regulatory tool but is a policy document. When reviewing subdivision applications, the boards can use the plan as a tool to identify future regulatory changes.

Recommendation:

The Planning Department recommends granting approval of the road names Hampstead Street, Cherry Branch Drive, Gardenview Drive, Owls Branch Drive, Goldenleaf Drive, Freemont Avenue, Misty Pine Street, Burkdale Drive, Hidden Pond Place, and Hawks View Point and granting approval of subdivision Preliminary as submitted with the following conditions:

1. The final plat shall provide setbacks.
2. The county attorney shall review and approve the contract and performance guarantee prior to final plat recordation.
3. Prior to final plat recordation the engineer shall certify to the county that there is all weather access for emergency vehicles and the certification must be approved by the Fire Marshal.
