Once you get the authorization to construct, you will be asked to contact our utility inspector for a pre-construction meeting, but you don't need an approval letter from the county. You have a 1 year warranty on the work and will be asked somewhere in the year timeframe to address the issues if there are any. This is after the initial punch list is completed by the contractor.

Does that answer your question?

Thank you,
Chris Summerlin

Chris-

I have one last question on this project, does the county provide an approval letter or is the approval the signature of the permits for state submittal?

I wanted to say thank you again for all your assistance on this project!!

Thanks again,
Brad Haertling
